www.happycappyshampoo.com

OUR UNIQUE FORMULA:

- ✓ Dermatologist Tested
- ✓ Pediatrician Created
- ✓ Fragrance & Dye Free
- ✓ Contains Licorice Root Extract to Soothe Redness

1 in 3 infants will get some degree of flaking, redness, scaling and irritation of the scalp. These bothersome symptoms are known as seborrheic dermatitis.

Pediatricians regularly recommend adult dandruff shampoo to treat seborrheic dermatitis which is also known as cradle cap.

Dr. Eddie's Happy Cappy[®] contains the same active ingredient as adult dandruff shampoos but has been formulated for use on the youngest most sensitive scalps.

MADE IN THE U.S.A.
